CARL TAIT

Milliken™

150
years of Milliken.

Carl Tait '96

INSPIRED.

A Renaissance man, Carl Tait, whose artwork is a permanent part of the Milliken Collection, explored a number of artistic endeavors including product design and painting. His painting style ranged from soft, nature scenes to holiday cards and bold abstract geometrics. It's those bold abstract forms that influence the patterns and colorations of our new "Carl Tait Collection". Bold in form, yet complex when studied in detail, these patterns reflect a mid-century sensibility appropriate for today's interior.

50CM Modular Tiles — Guest Rooms SDN

Guest Rooms SDN

Make every guest room an unexpected upgrade with the possibilities provided by solution dyed modular carpet tile. Each room can become a unique installation with the use of multiple products to create texture or have a monolithic design with a single product selection. For the Carl Tait collection, we've made selections from our openline SDN carpet tile offering easy coordination with the larger scale patterns in the collection. Awaken new choices in guest rooms with Milliken carpet tile.

Some advantages of carpet tile in guest rooms:

- Ease of installation and maintenance
- Reduced lifecycle costs vs broadloom
- Modular tile with cushion backing lasts up to 40% longer than other carpet
- Eliminate the complexity associated with receiving, transporting, and storing

Ask your local Milliken rep about our full list of advantages when using modular tile in guest rooms.

Motifs

Single design elements, no repeat, on a transparent background

How To Use étage

1

Select a design as shown in this brochure, or use étage technology to customize.

Add and subtract design layers and motifs to create your own look. Remember that you must always use at least two layers, one of which must be the background.

2

Designs in this brochure use a set of colors intended for this particular collection.

Specific colors used in each design are indicated below each pattern image as a swatch of the color with a number inside it. Refer to the colorway diagram on page 27 to find a corresponding color code. These colors are part of the Milliken Pure Color system.

3

Choose a carpet construction that suits your installation.

Contact your Milliken representative to discuss the carpet construction that's best for you.

Designs shown in the brochure are ready to use, but you can also select them as a starting point for customization using étage technology.

No change is too great or too small (like simply choosing different colors from a pre-designed rug/runner).

Colorway

The Carl Tait collection has eleven colors from over 1360 options in our Pure Color system.

Get more at etage.milliken.com

pure|color

Based on the Natural Color System (NCS), the Pure Color Box lets designers play with the entire color wheel. With over 1360 defined colors and endless options in-between, PureColor makes custom easy.

Position 1 is used to apply a unique code with our Incode UV sensitive dye.

Elaborate large scale designs created with multiple unique tiles may seem overwhelming and a perceived installation challenge. However, Milliken's Incode is a unique technology that achieves large scale designs with an easy install process that benefits installers, specifying designers, and end-users.

When it's time to break away from traditional hospitality looks, engage in étage technology.

This all-new process builds a complex pattern, layer by layer. Creating a fully custom look is as simple as choosing and combining layers — layers of organic design elements that defy traditional ideas of symmetry, boxes and borders. Étage technology brings a kind of freedom of design never before known in the hospitality industry.

Each collection includes small-, medium- and large-scale elements for ultimate flexibility in defining rugs, runners and open areas. Combine broadloom and modular and get the best of both. Freedom. Control. It's all here, waiting for an artist's touch. Exclusively from Milliken.

Layers can be added, subtracted, re-ordered, rotated, re-sized and re-colored in any combination to suit your needs.

Best of all, repeating layers and motifs from all étage collections can be used together to create a myriad of designs.

OTHER DESIGNS IN ÉTAGE

Have you seen all of our patterns? Étage allows you to use design elements from any design collection. Visit us online today and experience all that étage has to offer.
