Dendritic / Lamellae / Stipe

Milliken™

INSPIRED SERIES

A spectacular and ingenious bunch, mushrooms and fungi have taken a distinctly different approach to life. Their finely intricate structures allow them to thrive universally, and give them an array of aesthetics that are whimsical and wondrous.

Inspired by the unusual patterns in their forms, we've broken down the essential elements and created a grouping of three patterns that attempt to reinterpret that magic of the mushroom.

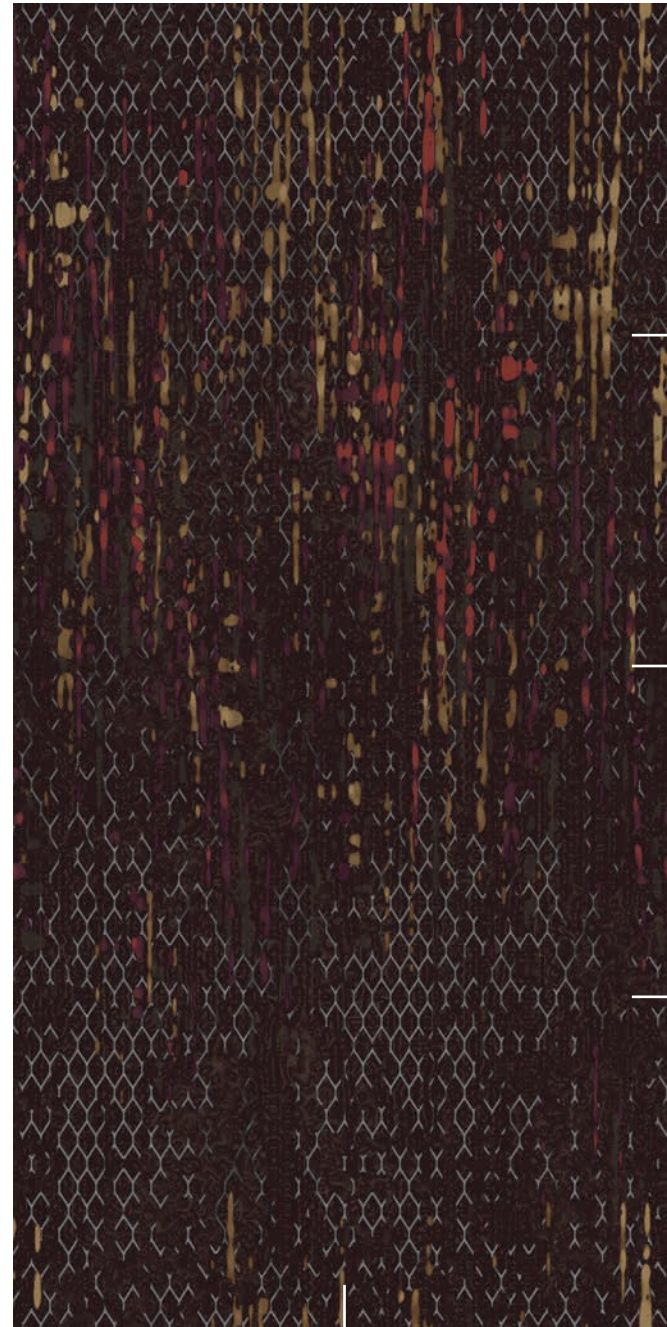

DENDRITIC

Dendritic is a total deconstruction of a mushroom, leaving essential visual qualities, like the striations of the stem, bright pops of color from the caps, and of course the complicated network of mycelium, creating the structure of both the individual and the whole.

LAMELLAE—BROADLOOM
Mesh Order#: 00890603
Pattern Repeat: 81" x 81"

Inspired by the gradation of pattern density that occurs along the mushroom cap, Lamellae unfolds its unique natural design into a two-dimensional representation. The glossy, morning-dew sheen of mushroom caps is reflected in the shimmery texture and color combination of this luxurious broadloom product.

Stipe is the simpler, more understated plank companion to Dendritic. Overall textures and more straight-forward coloration make it a giving collaborator or a nice stand-alone option for subtlety.

MILLIKEN CARPET TILE FEATURES

BACKING Various backing types are available with different tile options. All Milliken tile comes standard with attached PVC-free polyurethane cushion. Milliken broadloom has Endura-Loc™ High Performance Backing with woven latex secondary.

DIMENSIONAL STABILITY For carpet tile, it is imperative that the tile remain flat and dimensionally stable and secure to the floor under extreme conditions (humidity, temperature, & rolling traction). All Milliken modular carpet products are certified with the Aachen test and pass for dimensional stability.

STAINSMART® STAIN & SOIL PROTECTION Food and beverage spills in public environments require product performance enhancements to help with long term cleanability and overall appearance. All Milliken carpet products include as standard our StainSmart® technology—a chemically bonded stain and soil resist technology.

MOISTURE BARRIER For added performance, tile is standard with a barrier layer that prevents moisture from penetrating through the backing. Upgradeable option on broadloom.

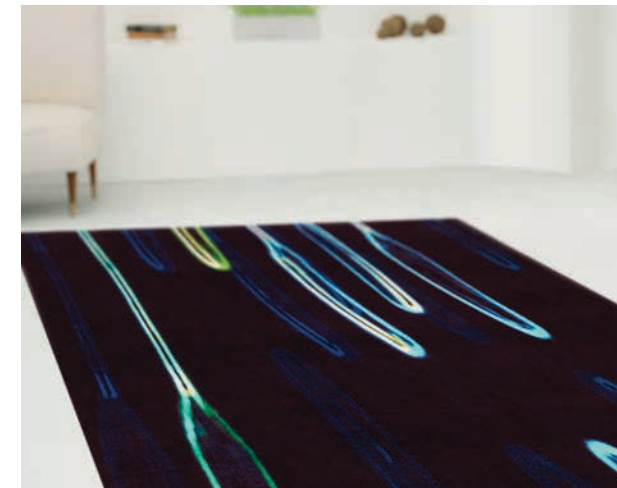

COMPLETE FLOORING SOLUTIONS

With an industry leading selection of high-performance broadloom, modular carpet, and LVT options, we are inspired to create exceptional hospitality flooring products that will inspire you and your guest.
