How To Use étage

1

Select a design as shown in this brochure, or use étage technology to customize.

Add and subtract design layers and motifs to create your own look. Remember that you must always use at least two layers, one of which must be the background.

2

Designs in this brochure use a set of colors intended for this particular collection.

Specific colors used in each design are indicated below each pattern image as a swatch of the color with a number inside it. Refer to the colorway diagram on page 23 to find a corresponding color code. These colors are part of the Milliken Pure Color system.

3

Choose a carpet construction that suits your installation.

Contact your Milliken representative to discuss the carpet construction that's best for you.

Designs shown in the brochure are ready to use, but you can also select them as a starting point for customization using étage technology.

No change is too great or too small (like simply choosing different colors from a pre-designed rug/runner).

Colorway

The Modern Masters collection has twelve colors from over 1360 options in our Pure Color system.

pure|color

Based on the Natural Color System (NCS), the Pure Color Box lets designers play with the entire color wheel. With over 1360 defined colors and endless options in-between, PureColor makes custom easy.

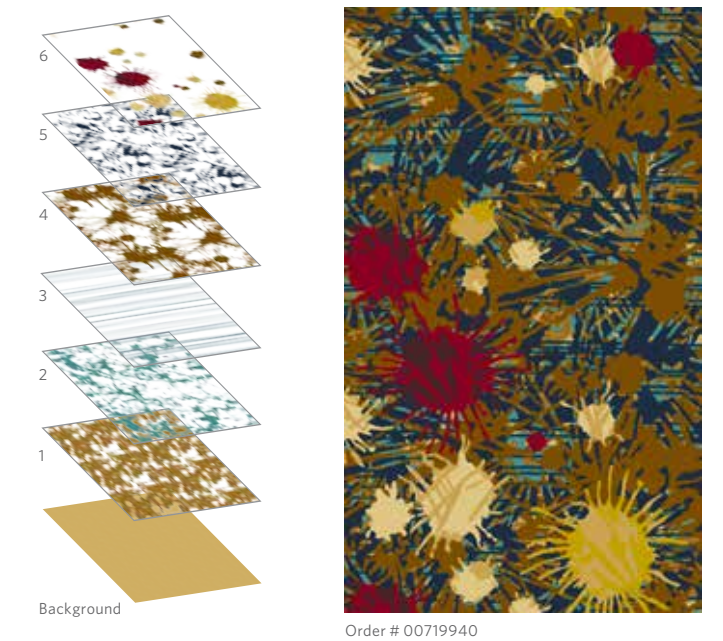

When it's time to break away from traditional hospitality looks, engage in étage technology.

This all-new process builds a complex pattern, layer by layer. Creating a fully custom look is as simple as choosing and combining layers — layers of organic design elements that defy traditional ideas of symmetry, boxes and borders. Étage technology brings a kind of freedom of design never before known in the hospitality industry.

Each collection includes small-, medium- and large-scale elements for ultimate flexibility in defining rugs, runners and open areas. Combine broadloom and modular and get the best of both. Freedom. Control. It's all here, waiting for an artist's touch. Exclusively from Milliken.

Layers can be added, subtracted, re-ordered, rotated, re-sized and re-colored in any combination to suit your needs.

Best of all, repeating layers and motifs from all étage collections can be used together to create a myriad of designs.
