## SUNDANCE

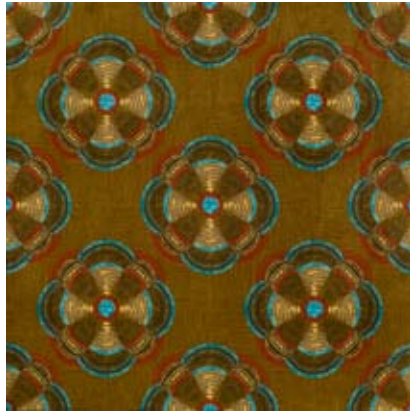

### INSPIRED. INSPIRING.

*Stylized circles, elaborate beadwork, bell flowers and birch bark textures combine to create Sundance, a high energy and contemporary twist on the traditional Greek mosaic design. Developed specifically for the gaming market, Sundance is the latest in Milliken's award winning collection of étage® layered designs. The collection offers a coordinated package of carpet tile designs for the entire casino interior. Options include patterns of varying scales for the gaming floor, bar area, restaurant, lobby and connecting walkways.*
