

Woodland Way

INSPIRED. INSPIRING.

Nestled amongst the stacks of books was a small, painted box detailed with a most delicate branch slowly wrapping around the surface as if holding the secret contents tightly with the sprout of each new leaf. Curious of the treasure inside, but entranced by the package, another day would yield to the beauty of found objects and the surprise of unexpected discovery.

An exploration of large florals and intricate scroll-like leaves, the Woodland Way broadloom carpet collection balances the supple hues of pinks and mauves with acidic yellows and tonal browns. Change a color or combine layers with one of your favorite etage collections. Explore the possibilities of custom made easy.
